

## PROGRAM KOMPETENSI KONTRAKTOR KERJA TNB - SKOP KERJA KABEL

### Cable Laying Practices Up to 33kV

#### Objective

- Explain the cable laying practices up to 33kV based on TNB standard cable laying techniques and specifications
- Manage the installation, monitoring and supervision of 33kV cable related projects safely
- Ensure safety at site

#### What will you learn?

- ✓ Safety and Health Practices
- ✓ Akta Bekalan Elektrik 1990 & Peraturan-Peraturan Elektrik 1994
- ✓ Design and Construction of Underground Cable up to 33kV
- ✓ Causes of Underground Cable Damage
- ✓ Theory of Cable Laying Practices
- ✓ Theory of Cross Bonding Techniques and Link Box
- ✓ Demonstration and Practical of Sheath Test
- ✓ Demonstration and Practical of Sheath Repair
- ✓ Theory and Demonstration on End Capping Cable

### Traffic Control & Road Resurfacing

#### Objective

- List of the Act & Rules in traffic Management
- Apply the right working methods in planning and designing Traffic Management Plan in the construction area
- Distinguish the Road Structure and Materials
- Apply the right technique of Road Resurfacing

#### What will you learn?

- ✓ The Needs of Traffic Management
- ✓ Act and Rules in Traffic Management
- ✓ The current working methods of planning and designing Traffic Management Plan
- ✓ Applying the Traffic Management Plan in the construction area
- ✓ Traffic control equipment

| Course                             | Price per pax                   | Date | Location | Please (✓) |
|------------------------------------|---------------------------------|------|----------|------------|
| Cable Laying Practices Up To 33kV  | RM3,750/ pax<br><u>Grouping</u> |      |          |            |
|                                    | RM 11,040 (3pax)                |      |          |            |
|                                    | RM 18,250 (5pax)                |      |          |            |
|                                    | RM 21,000 (7pax)                |      |          |            |
|                                    | -harga tidak termasuk sst 6%    |      |          |            |
| Traffic Control & Road Resurfacing | RM3,750/ pax<br><u>Grouping</u> |      |          |            |
|                                    | RM 11,040 (3pax)                |      |          |            |
|                                    | RM 18,250 (5pax)                |      |          |            |
|                                    | RM 24,850 (7pax)                |      |          |            |
|                                    | -harga tidak termasuk sst 6%    |      |          |            |

#### \* Early Bird-

The Early Bird offer is valid upon registration and the payment paid 30 days in advance from the date of training. Limited period offer. T&C apply

#### For further information :

**Rohaya Atan**

Tel : 03 -8922 7357

Email : rohaya.atan@tnb.com.my

**Ros Maizura Rosli**

Tel : 03 -8922 7222 - Ext-6246

Email : maizura.rosli@tnb.com.my

**\*\* 20 CCD points (Contractor Continues Development) will be given upon completing each course.**

**\*\* After completing all the courses under scope of work substation the participant will be given Kad Akuan Kompetensi**

**\*\*All prices are GST excluded**

#### Term & Condition :

**\*\*Cancellation or postpone 14 or less days from program commencement 100% training fee penalty charge will be imposed.**

**\*\*Cancellation or postpone 15 – 30 days from program commencement 50% training fee penalty charge will be imposed.**

Better Learning, Brighter Solutions
